## Mini-DV Disclaimer

SMV Complete Media (SMV) records all Mini-DV according to Sony specifications using Sony videotape recorders. Mini-DV copies played back using equipment other than Sony brand VTRs or cameras (and in some cases Sony consumer cameras) may experience interchange problems (may not playback).

SMV assumes no responsibility for compatibility issues encountered due to the use of non-Sony playback equipment or Sony consumer cameras.

For your convenience SMV now offers rental of Sony Mini-DV videotape recorders/players. For details, please contact our Rental department.

Your signature below indicates your understanding and acknowledgement of the above statements. You further understand and acknowledge that you accept full responsibility for Mini-DV duplication performed by SMV at your request and that you are responsible for payment of requested Mini-DV orders at SMV regardless of compatibility issues.
